Oilfields, Cal.

Dear Editor;

As I have not seen any news from this place in some time will jot down a few items.

Weather is very fine, nice and cool now, sleep under 2 blankets at night

It has not rained here since April, and don't look as though it would ever rain any more.

All the boys from Jackson county are well and have good jobs. Wages are not less than \$4.25 per day for eight hours.

Tinsley Chaffin has joined the navy and gone to Los Angeles, Calif.

Johnie Walker left here to-day for Gainesboro singing "Home Sweet Home."

Jas. B. Chaffin is longing to see the old country again. If there is any sign in a fellow whistling lonesome tunes.

Hello! Jeff Reeves. The big barn I was telling you we lived in, came very near burning down some time ago. Caught fire in the hay, up stairs and burned up some of the boys hay too.

Geo. West is one of the most lonesome looking men you ever saw. You can see the Gipson Hollow written all over his face. He says it is awful to be so far away from home. He writes a letter most every day and two on Sundays.

Coalinga is a dry town now, or that is what others say. I have not been there in so long I don't know.

Several of the men left here yesterday for Camp Lewis.

Men are scarce here now, no trouble to get work, if you look like you wanted a job, they are after you.

I was very glad to see our county go over the top in buy-inn W. S. S. It looks as though there was still left some of the patriotism of our fore fathers, who shouldered their rifles to meet Ferguson at Kings Mountain to tear off the yoke of oppression, that we might enjoy freedom and liberty. And the struggle of to day is of just as vast importance, because it means the destruction of Kaiserism and autocracy, and freedom and liberty for the world. Then let us all lend a hand. If we can't go over there, we can do our bit by buying bonds, W. S. S. and donating to the Red Cross, all of which we will have to do if we destroy autocracy and make the world safe for democracy, that we and our posterity may enjoy the liberty that is rightfully ours.

Carsey Lynch says if he ever gets back there he will never get out of hearing of the town

COULD HARDLY STAND ALONE

Terrible Suffering From Headache, Sideache, Backache, and Weakness, Relieved by Cardui, Says This Texas Lady.

Gonzales, Tex.—Mrs. Minnie Philpot, of this place, writes: "Five years ago I was taken with a pain in my left side. It was right under my left rib. It would commence with an aching and extend up into my left shoulder and on down into my back. By that time the pain would be so severe I would have to take to bed, and suffered usually about three days ... I suffered this way for three years, and got to be a mere skeleton and was so weak I could hardly stand alone. Was not able to go anywhere and had to let my house work go... I suffered awful with a pain in my back and I had the headache all the time. I just was unable to do a thing. My life was a misery, my stomach got in an awful condition, caused from taking so much medicine. I suffered so much pain. I had just about given up all hopes of our getting anything to help me.

One day a Birthday Almanac was thrown in my yard. After reading its testimonials I decided to try Cardui, and am so thankful that I did, for I began to improve when on the second bottle... I am now a well woman and feeling fine and the cure has been permanent for it has been two years since my awful bad health. I will always praise and recommend Cardui." Try Cardui today. R 78

Merchants, Read This.

The new sugar regulations are published in this issue of the Sentinel. These rulings and all others issued by the Food Administration at Washington are changed every few weeks, and the public, and especially the merchants of Jackson county should keep informed on all new rulings. The Sentinel publishes all of the new rulings as soon as issued, and every merchant in the county that is not, should subscribe for the Seutinel at once. The rulings will in all likelihood be changed more often from now on.

Profits and Prices

Profits may be considered from two angles:

- 1st—Their effect on prices;
- 2nd—As a return to investors.

When profits are small as compared with sales, they have little effect on prices.

Swift & Company's profits are only a fraction of a cent per pound on all products sold, and if eliminated entirely would have practically no effect on prices.

Swift & Company paid 10 per cent dividends to over 20,000 stockholders out of its 1917 profits. It also had to build extensions and improvements out of profits; to finance large stocks of goods made necessary by unprecedented requirements of the United States and Allied Governments; and to provide protection against the day of declining markets.

Is it fair to call this profiteering?
